Bex is one of the characters in the presets (the second character in the second column on page 1). She can also be found in Life mode, in "Gacha City" next to Fierin.

She has her own mini game you can play to earn gems called Bex's Festival, where you catch falling chicken nuggets.

Her favourite gifts (that give you twice the EXP you normally get when gifting a character and also a different response) are the cookie, sugar cookie, star cookie, heart macaron, the ghost cookie and any 6-star gift (which only gives a different response.)
